

INSULATION—AN OVERVIEW OF DIFFERENT TYPES AND THEIR USES

A free CSBT training session

Date: Thursday 8 March 2012
Venue: CSBT, Tehidy Cottages, St Austell
Time: 1.00-3.00 pm

This is a free CSBT training session looking at sustainable insulation materials. Both commercial and residential buildings need the right insulation to ensure the best performance. This session will look at some of the best sustainable insulation currently available and their uses.

The session will be run by Nigel Bosanko of Excel Industries and Paul Davies of Tinhay Building Supplies.

Nigel Bosanko of Excel Industries:

- Brief overview of Excel products
- Warmcel—its manufacture and properties
- Environmental benefits
- Thermal Performance - what benefits Warmcel can bring to a project with regard to Part L Regulations
- Fire Performance
- Durability
- Case Studies

Paul Davies of Tinhay Building Supplies:

- Traditional insulation products
- Uses and benefits of different types of insulation

At the end of the session there will be an opportunity to look at a new product - Technopor—Glass Foam Granulate - Ecological Insulation and light weight building material.
